GPA 3.39
Cum Laude

TEACHING EXPERIENCE

UNIVERSITY OF FLORIDA, GAINESVILLE, FL

Program Director and Lecturer, July 2014-present

Taught the following online and on-campus graduate and undergraduate courses:

Sport Marketing, SPM 5309

This course was designed to introduce students to the application of the principles of marketing to the managed sport industry with emphasis on intercollegiate athletics, professional sport and multi-sport club operations. The function of the course was to provide students with an up-to-date understanding of marketing concepts as they are currently being applied in various sport management contexts; and it was intended to provide a foundation for those students who plan to do advanced study and work in marketing, consumer behavior and related fields.

Management and Leadership in Sport, SPM 6158

This course was designed to explore the critical function of leadership in the management of sport organizations. Building from the academic foundations of industrial psychology, organizational behavior, and organizational theory, we consider the degree to which leadership is of strategic importance to organizational operations. The topics were approached from a variety of directions (including classical leadership theory, biographical studies, analyses of contemporary issues of leadership, philosophical debate, and personal experiences) and disciplines (both inside sport and out). In addition to gaining an advanced understanding of leadership theory and practice, student considered their own approaches to leading organizations.

Sport Mass Media, SPM 6905

This course was designed to examine the various forms (print and electronic) of mass media in sport; the evolution of sport mass media; the relationship of sport and mass media; the modes of communication (i.e., press conferences, news releases, and interviews) sport managers use to communicate with mass media; the role of sports information specialists; sport administrators' management of public relation crises; and the laws and ethics that impact the relationship between sport managers and mass media.

Sport and Business Finance, SPM 4515

This course was designed to familiarize students with the decision making with respect to financial considerations. The course included an in-depth analysis of the various tools, techniques, and other finance-related information students will need to understand and master in order to handle complex financial concerns in the workplace. This course examined how money helps drive sport and facility businesses and why those who can understand and apply financial management techniques will be more capable employees. While this class was geared toward some unique aspects of the sport industry, the skills acquired here will help with making decisions in any business platform.

Administration of Sport and Physical Activity, SPM 4154

This course was designed to familiarize students with the concepts of management, leadership and human resource management in the sport context. The study of sport included sporting goods manufacturers; fitness centers; recreation departments; broadcasting; Little League teams; and high school, NCAA, and professional leagues. The study of management followed the four functions of management (planning, organizing, leading, and controlling). Through various individual and group assignments, students gained knowledge and developed skills relevant to becoming an effective sport administrator. Emphasis was placed on learning leadership styles and concepts, as well as common human resource issues.

Sport Ethics, SPM 5206

This course was designed to encourage sport managers to think about the moral and ethical dilemmas typically encountered by managers in the sport industry. The course better acquainted and refine sport managers' understandings of sport relative to issues such as sportsmanship, violence, performance enhancing drugs, race, gender, and media. This better prepared students in this class to be agents of change within the sport industry to help it strengthen and prosper.

KENNESAW STATE UNIVERSITY, KENNESAW, GA

Temporary Assistant Professor, August 2013-2014

Taught the following undergraduate courses and implemented online components:

Intro to Sport Management, SM 2100, Spring 2014

The course was designed to provide current or future sport and/or exercise program administrators with an overview of the sport management discipline. The introduction was focused on the history of the sport management discipline, career opportunities, management principles, marketing, economics and finance, facility and event management, communications, and public relations. These principles were applied to various sport and exercise settings, such as interscholastic, intercollegiate, international and professional sport along with the health/fitness and community recreation industries.

Leadership and Management of Sport Organizations, SM 3200, Fall 2013, Spring 2014

This course was designed to familiarize students with the concepts of management, leadership and human resource management in the sport context. The study of sport included sporting goods manufacturers; fitness centers; recreation departments; broadcasting; Little League teams; and high school, NCAA, and professional leagues. The study of management followed the four functions of management (planning, organizing, leading, and controlling). Through various individual and group assignments, students gained knowledge and developed skills relevant to becoming an effective sport administrator. Emphasis was placed on learning leadership styles and concepts, as well as common human resource issues.

History and Contemporary Aspects of Sport, SM 2200, Fall 2013, Spring 2014

This course was designed to acquaint the student with the development of amateur and professional sport. Each area was presented with interpretations and analyses of why events occurred, the impact on the development of the discipline, and the future trends of sport. The contributions of individuals and society's impact on the various topics were also included.

Sports Sociology and Psychology, SM 3100, Fall 2013

This course was designed to acquaint the undergraduate student with the principles and applications of social issues and psychology within the sport industry. The course analyzed the sociological aspects of sport and look at how amateur/professional sport and sport business enterprises reflect societal values and issues in the arena of sport. Topics such as gender, disability, race and ethnicity, aggression, politics, religion, and class and social mobility, were studied.

GEORGIA STATE UNIVERSITY, ATLANTA, GA

Part-time Instructor, June-July 2013

Taught the following graduate course and implemented online components:

Budget and Finance in Sport and Recreation, KH 6560, Summer 2013

This course was designed to be an in-depth analysis of the various tools, techniques, and other finance-related information students will need to understand and master in order to handle complex financial concerns in the workplace. This course examined how money helps drive sport and facility businesses and why those who can understand and apply financial management techniques will be more capable employees.

UNIVERSITY OF GEORGIA, ATHENS, GA

Graduate Research Assistant, August 2012-May 2012

Graduate Teaching Assistant (Instructor), August 2009-August 2012

Taught the following undergraduate courses and implemented online components:

Sport Finance, KINS4520, Spring 2012

This course was designed to acquaint the undergraduate student with financial theories and practical application as they affect sport revenues and expenditures including both private and public economic influences. There was an emphasis on both traditional and innovative revenue acquisition methods available to sport organizations today. Along with conventional income sources such as tax support, municipal and corporate bonds, ticket sales, concessions and fund raising, students received exposure to more recent innovations related to licensing sport products, and corporate sponsorships.

Sport Mass Media, KINS5210, Spring 2010

This course was designed to examine the media experiences; the economic structure of media and sport; various forms (print and electronic) of the media and their representation of sport; theories and methodologies for exploring media and sport; the sport/media relationship, the issue of ideology and representation; and the negotiation between fact and fiction.

Sport Business Practice, KINS3430, Fall 2009, Fall 2011

This course was designed to provide current or future sport and/or exercise program administrators with an overview of the sport management discipline. The introduction was focused on the history of the sport management discipline, career opportunities, management principles, marketing, economics and finance, facility and event management, communications, and public relations. These principles were applied to various sport and exercise settings, such as interscholastic, intercollegiate, international and professional sport along with the health/fitness and community recreation industries.

Beginning Tennis, PEDB 1350, Fall 2009, Spring 2010, Summer 2010, Fall 2010, Spring 2011, Summer 2011, Fall 2011, Spring 2012, Summer 2012

Ultimate Frisbee, PEDB 1280, Fall 2010, Spring 2011, Fall 2011, Spring 2012

UNIVERSITY OF NORTH FLORIDA, JACKSONVILLE, FL

Visiting Instructor, August 2008-June 2009

Taught the following undergraduate courses and implemented online components:

Sport Facility Management, SPM 3104, Summer 2009

The course was designed to provide students with an introduction to the planning and management of sports facilities. Students benefited from the real-world examples and detailed assessments of the various facility management issues. Some of the facility management issues covered were facility design, facility planning, event administration, security planning, and risk management.

Introduction to Sport Management, SPM 2000, Spring 2009

The course was designed to provide current or future sport and/or exercise program administrators with an overview of the sport management discipline. The introduction was focused on the history of the sport management discipline, career opportunities, management principles, marketing, economics and finance, facility and event management, communications, and public relations. These principles were applied to various sport and exercise settings, such as interscholastic, intercollegiate, international and professional sport along with the health/fitness and community recreation industries.

Sport Marketing, SPM 3306, Spring 2009

The course was designed to introduce students to the application of basic principles of marketing to the managed sport industry with emphasis on intercollegiate athletics, professional sport and multi-sport club operations. The function of the course was to provide students with an up-to-date understanding of marketing concepts as they are currently being applied in various sport management contexts; and it was intended to provide a foundation for those students who plan to do advanced study and work in marketing, consumer behavior and related fields.

Issues in Sport, SPM 3493, Fall 2008

The course was designed to acquaint the undergraduate student with the principles and applications of social issues within the sport industry. The course analyzed the sociological aspects of sport and look at how amateur/professional sport and sport business enterprises reflect societal values and issues in the arena of sport. Topics such as gender, disability, race and ethnicity, aggression, politics, religion, and class and social mobility, were studied.

Sport Finance, SPM 4464, Fall 2008

The course was designed to acquaint the undergraduate student with financial theories and practical application as they affect sport revenues and expenditures including both private and public economic influences. There was an emphasis on both traditional and innovative revenue acquisition methods available to sport organizations today. Along with conventional income sources such as tax support, municipal and corporate bonds, ticket sales, concessions and fund raising, students received exposure to more recent innovations related to licensing sport products, and corporate sponsorships.

UNIVERSITY OF FLORIDA, GAINESVILLE, FL
Visiting Lecturer, August 2005-August 2008
Adjunct Undergraduate Instructor, May 2005-June 2005

Taught the following undergraduate courses and implemented online components:

Women in Sports, PET 3254, Fall 2007, Spring 2008

The course was designed to provide an understanding of the historical developments of the participation of women in sports, physiological and psychological considerations of female athletes, and sociological background of the participation and involvement of women in sport. Specific topics such as the marketing of women athletes and sports, media portrayal, and job opportunities for women in sports were discussed.

History of Sport and Exercise Science, PET 3121, Fall 2005, Spring 2006, Summer 2006, Fall 2006, Spring 2007, Summer 2007, Fall 2007, Spring 2008, Summer 2008

The course was designed to acquaint the student with the development of physical education, professional and amateur sport, the Olympic movement, and exercise and sport sciences. Each area was presented with interpretations and analyses of why events occurred, the impact on the development of the discipline, and the future trends of exercise and sport sciences. The contributions of individuals and society's impact on the various topics were also included.

Sport and Society, PET 3251, Fall 2005, Spring 2006, Fall 2006, Spring 2007, Fall 2007, Spring 2008

The course was designed to acquaint the undergraduate student with the principles and applications of social issues within the sport industry. The course analyzed the sociological aspects of sport and look at how amateur/professional sport and sport business enterprises reflect societal values and issues in the arena of sport. Topics such as gender, disability, race and ethnicity, aggression, politics, religion, and class and social mobility, were studied.

Olympic History in Greece, Study Abroad Program, HLP4933/6935, Spring 2007

The course was designed to expose students to the international community via a focus on the history of the ancient and modern Olympic Games. The course provided students with international perspectives and an understanding of cultural differences, which lead to an appreciation of and respect for other societies. The course illustrated the contributions of ethnic groups to global and American sport traditions. The students were also provided with some basic insight into the nature and value of historical inquiry and research.

Introduction to Sport Management, PET 4471, Summer 2005

The course was designed to provide current and future sports and or exercise program administrators with an overview of the sport management discipline. The introduction was focused on the history of the sport management, career opportunities, management principles, marketing, economics, finance, legal aspects of sport management, facility management, and event management. These principles were applied to various sport and exercise settings such as interscholastic, intercollegiate, international, and professional sport.

UNIVERSITY OF FLORIDA, GAINESVILLE, FL

Graduate Teaching Assistant, August 2004- December 2004

Assisted Dr. Charles Williams, Senior Associate Dean, with the graduate level course- Planning and Managing Sport and Fitness Facilities, PET6456.

- Managed course information and student grades via WebCT
- Graded quizzes, exams, and assignments

RESEARCH INTERESTS

I have two core areas of research interest, (1) sport branding and (2) sport consumer behavior. Within sport branding, my focus lies in consumer attachment towards sport brands, such as college teams, professional teams, individual athletes, and international sports. With the cluttered entertainment marketplace, it is imperative that sport marketers are able to secure the highest levels of attachment between their brands and sport consumer to guarantee the longevity of the sport organization. This research is aimed to provide theoretical models to determine how brand love can be created and maintained for various types of sport organizations and explain the variance in post-consumption behaviors for these organizations. Additionally, the sport consumer behavior research can explain the factors that affect consumers' decisions to attend various types of sporting events.
